### **EDUCATION & QUALIFICATION**

---

Rooks Heath High School

Stanmore College

Buckinghamshire New University (Currently)

Studying Software Engineering

### **INTEREST & HOBBIES**

---

I watch/play football regularly, the team I support is Arsenal. Football is something I have always been passionate about but I keep myself up to date with other sports such as Tennis, Basketball and NFL. I have been to places like the Emirates Stadium, Wembley Stadium and even Watford's Vicarage Road; I also read and keep up with current affairs. I have varied taste in music and also in fashion. Furthermore, I enjoy socialising and spending quality time with my family and friends. I also play video games with friends. I love technology. I try my hardest to be in tiptop condition physically with regular sessions at the gym also swimming every fortnight. I also am a frequent cyclist, opting to take my bike over public transport.

In my free time I help out my uncle with an organisation he works for where he is the project coordinator and this project is called Hayaan project which deals with the mentally ill, I did a 3 week course which was in my free time on Mondays. I had to learn and gain enough experience from the course as I could, so I could help the people. Now that I have finished the course I gained a certificate and I am also now a voleenter for the Hayaan project which is funded by The Henry Smith Charity and linked with Mind organisation.
